

NO SHINE NOT MELT

NOSHINENOTMELT.jpg

No Shine Not Melt is a premium, super thin tape made specifically for silicone and poly bases. Its no-melt formula ensures a clean, mess-free experience, while the easy-clean design eliminates the need for removers. With a discreet, no-shine finish and a strong, durable hold, it's the ideal choice for those seeking reliable attachment and effortless maintenance. It offers a useful life of between 3 to 4 weeks, depending on the client's scalp.

Description

Why Choose No Shine Not Melt for Bonding?

- **No Remover Needed:** No Shine Not Melt offers a hassle-free experience with its easy-clean design, eliminating the need for removers.
- **No Melt Formula:** Specially designed to maintain its integrity without melting, ensuring a clean and comfortable wear.
- **Discreet Appearance:** With its no-shine finish, this tape remains undetectable, providing a natural look.
- **Super Thin & Durable:** Enjoy a secure, long-lasting hold with a tape that's both ultra-thin and exceptionally durable.

Applying the tape

1. Apply a thin coat of your chosen liquid adhesive to the skin base. Let it dry completely.
2. Once dry, apply No Shine Not Melt tape to the sides, back, and center of the base, leaving the front for last to ensure a natural look.
3. Apply a thin layer of liquid adhesive to your client's scalp and let it dry.
4. Carefully press the hair system onto the scalp, securing it firmly for a strong and comfortable hold.
