Description

Why use Scalp Protector?

- **Protects the Scalp:** Creates an invisible protective barrier between the scalp and the system to prevent irritation.
- **Boosts Adhesive Hold:** Improves the bond of tapes and adhesives for hair systems, allowing for a stronger wear.
- **Skin-Safe:** Gentle on the skin, allowing wear without discomfort.
- **Great for** oily and sweaty skin, warm or humid climates, and those who live active lifestyles.

How to Use Scalp Protector

We recommend performing a patch test before use.

1. Prepare the scalp with 99% Alcohol.
2. Before applying any adhesive, apply one coat of Scalp Protector thinly on the scalp.
3. Let dry until not tacky to touch, then apply adhesive or tape. Bear in mind that with scalp protectors, the tape or adhesive will start to adhere quickly.
4. This product is not meant to replace tape or liquid adhesive.
